

For immediate release

Commonwealth of Virginia Governor Bob McDonnell has announced the following Board Appointment.

Virginia Small Business Financing Authority

- **Doña Storey** of Virginia Beach, President and CEO of Quality Technical Services, Inc. and Govtips LLC

The Virginia Small Business Finance Authority (VSBFA) is the Commonwealth of Virginia's economic development and small business financing arm. VSBFA helps Virginia's existing businesses and those businesses that are seeking to come to Virginia through an extensive portfolio of financing programs.

Although VSBFA does not offer grants, the Authority adds value by helping Virginia's financial institutions offer business loans that they might not be able to offer without VSBFA assistance.

Ms. Storey was appointed to the VSBFA because of her strong support of and advocacy for small business issues; especially as relates to minority and woman-owned businesses. She is a nationally recognized speaker on small business empowerment and has testified before Congress concerning issues that affect small business success. Ms. Storey also serves on the Small Business Administration's (SBA) Regulatory Fairness Board where she routinely deals with rules and regulations effecting small businesses nationwide.
